Donald's technique appears to literally be just to be a pain to everyone as an incentive for everyone to be nice to him - hoping for relief from his terrorism.

His new tariffs are plain proof of the concept: he must have tariffs against everyone (or the threat of tariffs against everyone) in order to be 'wanted' as a person with which to engage in a deal.

His thought process is as simple as - if I terrorize the world and benefit only my friends, then everyone will want to be my friend to avoid my terrorism.

“You are now pregnant
and you will give birth to a son.
You shall name him Ishmael,^[a]
for the Lord has heard of your misery.
¹² **He will be a wild donkey of a man;**
his hand will be against everyone
and everyone's hand against him,
and he will live in hostility
toward^[b] all his brothers.’”
